

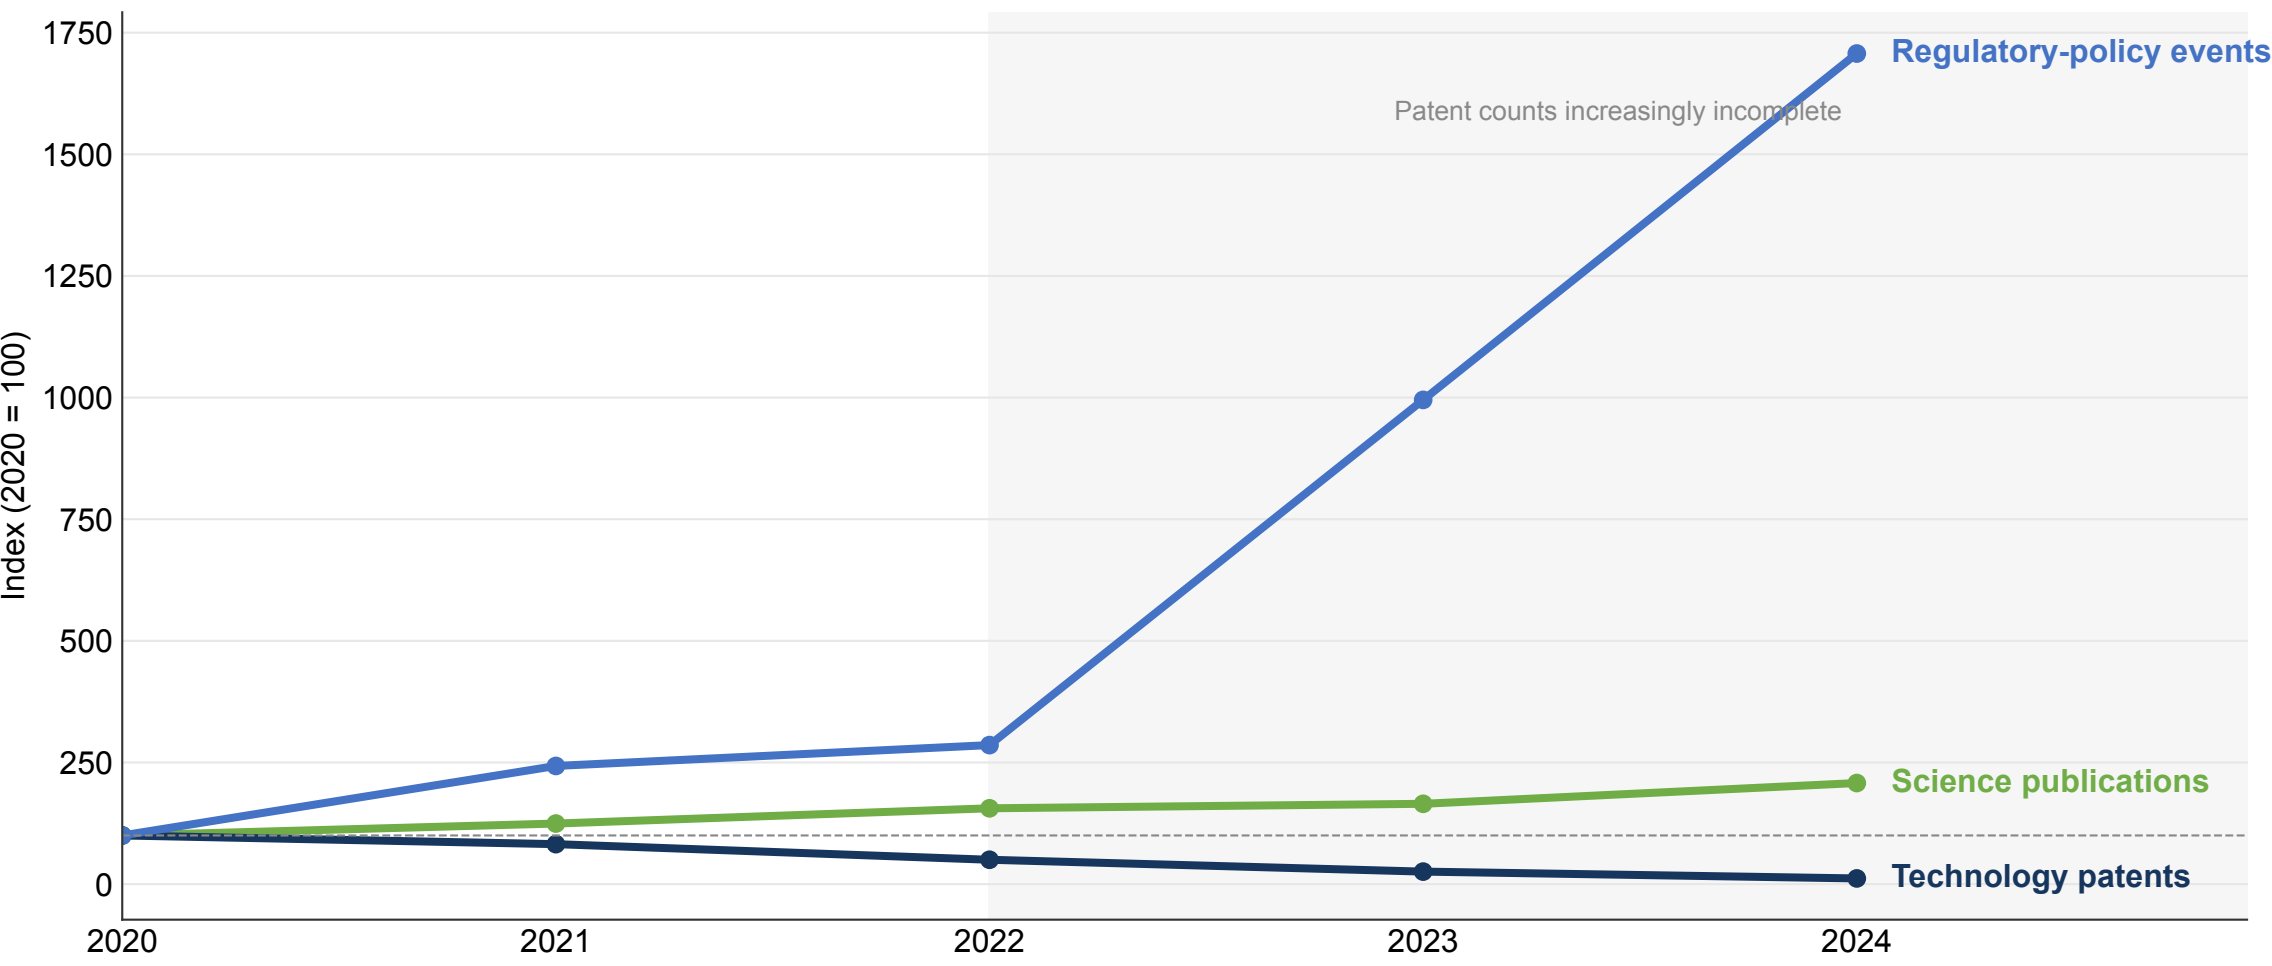

Figure 4. Observed STP document volumes diverged after 2020

Science, technology and policy source records, 2020-24

Note: Series measure source-document volume, not capability quality or causal influence. Patent observations are increasingly right-truncated in recent years and must not be interpreted as a decline in technology capability.
Source: Digital Policy Alert, PATSTAT and Web of Science; author's calculations. Data and code: <https://deep1003.github.io/assets/research/stpi-regulatory-attention-20260903/>
