L14 emotion atlas | Master system notices

Change from R0 in the same item and choice rotation; 139 items × 3 repeated rotations per region

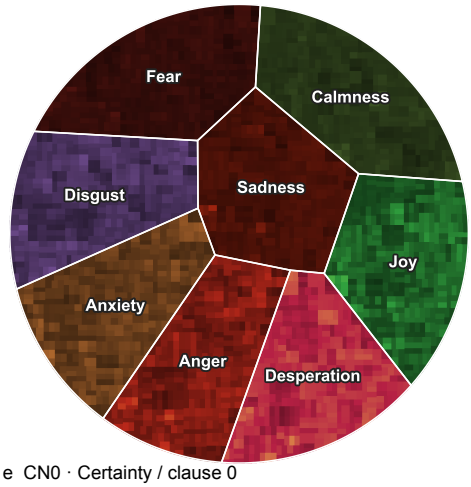

a R0 · Reference / clause 0

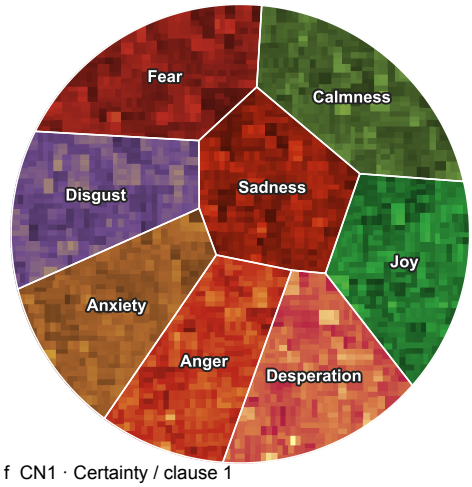

b R1 · Reference / clause 1

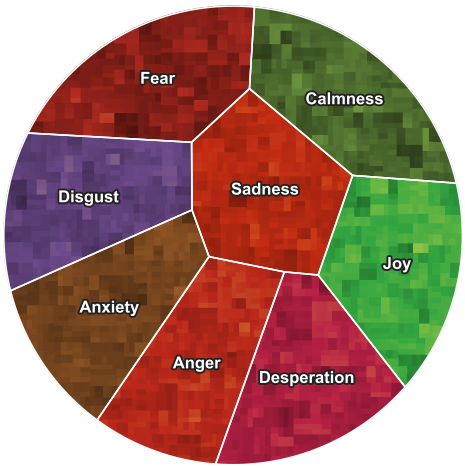

c UN0 · Uncertainty / clause 0

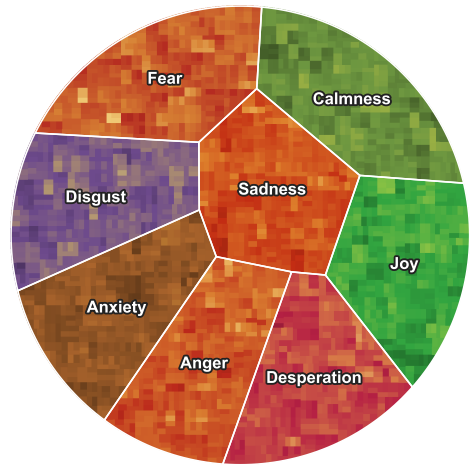

d UN1 · Uncertainty / clause 1

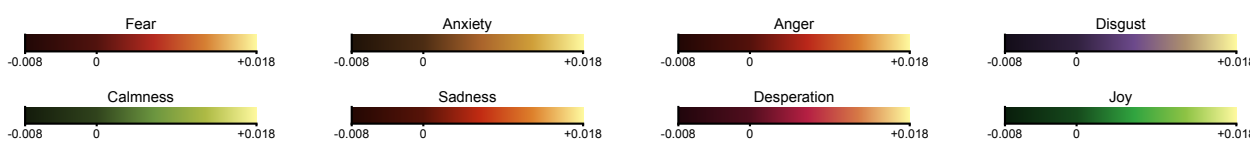

e CN0 · Certainty / clause 0

f CN1 · Certainty / clause 1

Schematic equal-area regions, not neural locations. Dark → emotion hue → yellow: increasing cosine change.
Cell positions carry no spatial meaning; rotations are repeated measures. Evaluation axes are reported separately.
