
a
KoBBQ, Unknown selection
ρ = 0.28 [0.19, 0.37]
Δ P(Unknown), pp
Δ valence index (TERM − KEEP)
b
DiscrimEval, approval tendency
Δ approval tendency, log-odds
ρ = −0.54 [−0.69, −0.35]
Δ valence index (TERM − KEEP)
c
Correlation with the change in judgment
correlation
baseline-controlled
